Morning Tiffani,

The Program and Legal Offices have completed their reviews of the Alabama Attorney General Statement Table, and here are our comments. As I stated earlier, the comments address minor issues such as typos and missing Administrative or State Codes from different subsections. We found a Word document of the Table that was sent earlier, and thanks for that. We added our comments to the Word doc, so hopefully, it will be easier on y'all making the revisions. Now, I understand that for these minor changes you do not have to go through the vetting process again from your Attorney General. If that has changed, please let me know ASAP; we don't want to make y'all do that again. If there any questions about our comments, feel free to contact me.

We are still working with our Legal Office and the Office of Federal Register (OFR) on the templates, so no time has been lost. Once the templates are finalized, I will be able to move onto the next step.

Terry

Afternoon Tiffani,

I've been reviewing the Attorney General Statement Table, and I noticed for 40 CFR 281.31(a) that it doesn't match the same Admin Codes that were cited in the Cross Walk, which is ok. However, it seems to be missing 335-6-15-.48, about airport hydrant systems and field erected tanks, unless I missed something that was listed (in 335-6-15-.07 or 335-6-15-.08), which is definitely possible.

Mr. Self,

Please find attached the updated Alabama Attorney General Statement Table, including the corrections suggested during our November 15th conference call. We are asking that you review our Attorney General Statement for compliance and approval for our 2018 SPA Package Submission. If this element of the package is acceptable, would you suggest we re-submit the entire package to EPA or would our final draft be added into the submitted package previously submitted? If you have any questions, feel free to call myself or Mr. Cruise. Hope to hear from you soon.

Thank you
